

## LIST OF TABLES

Table 1.1	Change in forest land area in the Philippines (in mil ha)
Table 1.2	Area reforested by the government and the private sectors and forest destruction statistics (in 000 ha).
Table 1.3	Summary of targets and accomplishments under the 1990 MPFD.
Table 2.4	River basins in the Philippines (NWRC, 1979)
Table 2.5	Proclaimed and priority watersheds in the Philippines
Table 2.6	Mangrove areas of the Philippines in 1988 and 1997
Table 2.7	Pine Forests of the Philippines in 1981 and 1997.
Table 2.8	Number and area of forest grazing land management agreements (FLGMA) and permits, CY 1990-2001 (Source: PFS, 2001)
Table 2.9	Cattle production in the Philippines, CY 1997-2002
Table 2.10	Chronological listing of major policies related to the administration and management of grazing lands
Table 2.11	Area of grazing lands targeted by MPFD for productive management versus the actual and projected number and area under FLGMA management
Table 2.12	Total hectarage of FLGMA lease areas with forage improvements. (Source: Annual Grazing Reports submitted to FMB – 2002)
Table 2.13	Number and types of parks by municipality/city in Metro Manila (as of 1994) (Source: Uriarte and Festin, 1994)
Table 2.14	Scenarios envisaged under POFP of 1990 MPFD
Table 2.15	Annual cost estimates of POFP
Table 2.16	POFP projects implemented by the DENR
Table 2.17	Appropriations of POFP (Million P), GAA
Table 2.18	CBFM Projects (as of December, 2002)
Table 2.19	Education, Training, Extension and Communication Program Accomplishments vis-à-vis Targets of the MPFD
Table 2.20	The logical framework matrix
Table 2.21	Definitions and examples
Table 2.22	Gross National Product (GNP) and gross value added (GVA) in the forestry (mil. pesos)
Table 2.23	Estimated forest charges on logs harvested ('000 pesos)
Table 2.24	Industry profile (license agreements)
Table 2.25	Industry profile (processing mills)
Table 2.26	Projected and actual production of forest products
Table 2.27	MPFD-projected demand, actual production, exports and imports of wood products
Table 2.28	Value of exports and imports of logs and major wood products (million USD)
Table 2.29	Production and exports of selected non-timber forest products
Table 2.30	Share wood, rattan and bamboo furniture in 2000 exports (US\$ million)
Table 2.31	Export value of handicraft products
Table 2.32	Projected and actual log production (million cum)
Table 2.33	Projected and actual plantation by private sector ('000 hectares)
Table 2.34	MPFD-projected demand and export of products vs actual production
Table 2.35	Production and export of processed wood products
Table 2.36	Apparent domestic consumptions of logs and major wood products (million cum)
Table 2.37	Export value of wood, rattan and bamboo furniture (US\$ million)
Table 2.38	Wood demand projections for furniture and housing
Table 2.39	Wood demand projections for furniture and housing
Table 2.40	Rattan demand projections for furniture

Table 2.41	Bamboo demand projections for furniture
Table 2.42	Foreign Assisted and Special Projects Relevant to the Forestry Sector
Table 3.43	National physical forest accounts/land cover status
Table 3.44	National forest volume account (in mil cum)
Table 3.45	Forest area under differ Nat management systems (area in '000 ha)
Table 3.46	Wood supply projections, local sources, in '000 cum (status quo)
Table 3.47	Projected production of timber from legal sources, status quo ('000 cum)
Table 3.48	Potential sustainable supply of timber from second growth forests and plantations
Table 3.49	Potential supply of bamboo, all sizes
Table 3.50	Potential supply of fuel wood (m cum)
Table 3.51	Wood supply projections, with imports, in '000 cum (status quo)
Table 3.52	Export-import of major wood products, status quo (in '000 cum)
Table 3.53	Wood and other wood/forest products demand 1990-2030
Table 3.54	Supply and demand balance (status quo, without imports)
Table 3.55	Roundwood supply and demand balance, using sustainable cut from residual forests ('000 cum)
Table 3.56	Summary, supply and demand balance
Table 6.57	Summary cost of priority programs under revised master plan (mil P)
Table 6.58	Total indicative costs for priority programs under revised master plan (mil P).
Table 6.59	Basic assumptions for the total indicative costs of priority programs.
